

Five Western Mysteries for our Changing Times

with R. J. Stewart & Anastacia J. Nutt
Glastonbury, Britain

** UnderWorld Chamber *
* Merlin * Mysterious Abbey **

** Hall in the Forest * Weaver Goddess **

Sat., Sept. 24th 10am-5pm & Sun., Sept. 25th 10am-4pm

These five primal mysteries of the British Isles have endured through countless generations and profound planetary transformations. During this new workshop, we will explore their application today, in our era of accelerating global change. We will discuss and explore how these Mysteries combine and recombine, in unique ways, for the sacramental needs of each era. We will then engage in our collective task of searching within them anew and thus returning to the heart of planetary Regeneration wherein these Five Western Mysteries both originate and are unified.

This course relies upon sequential meditation, empowered vision and community ritual to further our awareness of, and ability to meet, both the demands and the opportunities of our changing times.
